Junior frontend developer, Bachelor of Computer Science with design flair and skills.

I work with [React](#), [JavaScript](#), and [Tailwind](#), and for graphic design I use [CorelDRAW](#) and [Adobe Photoshop](#).

*Portfolio with Gallery*

A SPA React app styled with [Tailwind CSS](#).

Dynamically loads data for designs I've created over the past 10 years from an [external JSON](#) file. Supports category filtering and has a responsive modal window for a detailed view of each design. The app is organized into various components and uses basic hooks like [useState](#) and [useEffect](#) to manage state and side effects.
